[EPA Comments Email FishTSAP.pdf](#)
[EPA Approval Plant SAP_03.21.17.pdf](#)

Hello Tony,

Could you provide us with an update / status of these two items :

- Fish investigations Data Summary; EPA provided comments 10/13/15; 5/13/16; and 8/12/16 noted: Please provide a written report to EPA within 90 days of completion of field work.

I believe field work ended October, so that would be February 2017

- Plant Tissue/ Soil Report for data thru 2015/16. EPA provided comments 5/18/15; 10/13/15; 3/9/16; and 3/21/17 noted: On or before May 30, 2017; EPA directs ARC to prepare a plant sampling data summary that fully identifies the plants sampled, sample locations, and associated analytical results by May 30, 2017.

Best Regards,

Lynda Deschambault

Subject: Preliminary fish and plant data

Hi Lynda –

I was hoping we could get a copy of the fish and plant data that has been collected by ARCO thus far. Reviewing the fish and plant data is really important to the Tribe, as they are part of the Tribal traditional resource use and exposure pathways. I know it is probably in the preliminary stages, but if we could preview the data that has been collected thus far, that would be super helpful. Please let me know, or forward this email on to the appropriate person. Thanks!

Michelle Hochrein
